Summary: Dedicated React Engineer with 5+ years of experience in scalable development specializing in TypeScript and modern front-end architecture. Fully committed to building robust, maintainable applications that balance performance and scalability. My approach is meticulous - every decision is driven by best practices, long-term maintainability, and an obsession with clean, structured code. I believe great products come from a strong foundation, and I'm always looking for ways to refine and optimize my dev process.

Experience

(5 years 2 months)

- **React Engineer (Contract Role)** – Lviv, Ukraine
Aug 2024 – Mar 2025 (8 months, role-based)
 - **Contributed to the development and refinement of dashboards for two projects, identifying weaknesses and proposing strategic improvements.**
 - Built UI components and optimized workflows, ensuring scalability and maintainability.
 - Provided technical insights to improve performance and streamline front-end architecture.
- **React Engineer at Uniqit Group LLC (Nuvalt Project, Product)** – Kyiv, Ukraine
May 2023 – July 2024 (1 year 3 months, full-time)
 - Developed a **Crypto Business Management Platform**, focusing on **dashboard admin & statistics applications**.
 - Engineered a self-hosted installer, ensuring seamless deployment and user experience.
 - Helped create a custom UI library, improving component reusability across projects.
 - Translated complex designs into pixel-perfect landing pages within tight deadlines.
- **React Developer at Faster Than Light LLC (Outsource/Outstaff)** – Kyiv, Ukraine
Oct 2021 – May 2023 (1 year 8 months, full-time)
 - **Delivered the MVP for Offsiter, helping the team secure investments. Identified the root cause, analyzed the issue, proposed solutions, and implemented the fixes.**
 - Developed the Accounting module for an internal CRM, collaborating closely with Design, QA, and Backend teams.
 - Supported multiple projects, ensuring high-quality code and meeting sprint goals.
- **HTML, CSS & JavaScript Developer (Freelance)** – Kyiv, Ukraine
Sep 2019 – Mar 2021 (1 year 7 months, part-time)
 - **Transformed designs into fully responsive landing pages, widgets, and email templates.**
 - Maintained and further developed, client applications, ensuring long-term stability and performance.

Front-end stack:

- **Core:** HTML/HTML5, CSS/CSS3, JavaScript/ES6+, **TypeScript**
- **Frameworks:** React, **Next.JS**
- **State Management:** **Context API**, Redux, Redux Toolkit, Redux Saga, **Zustand**, Jotai
- **UI Libraries:** MUI, NextUI, **Shadcn/ui**, **Chakra UI**, Ant Design, Bootstrap
- **CSS Tools:** **SCSS**, Less, **TailwindCSS**, Styled Components
- **Routing:** **React Router Dom**, TanStack Router, **Next.JS App Router** & Pages Router
- **Auth:** NextAuth/Auth.js, OAuth
- **Forms:** **React Hook Form**, TanStack Form, Formik, JSON Forms (JSON Schema)
- **Validation:** **Zod**, Yup
- **Internalization:** i18Next, Next-Intl
- **API:** GraphQL (Apollo Client), REST (Axios, TanStack Query)
- **Tables:** TanStack Table
- **Charts:** **Recharts**, React Charts 2, Chart.js, React-Flow
- **Testing:** Jest, **Vitest**, **React Testing Library**, Cypress
- **CI/CD:** **GitHub Actions**, GitLab CI/CD
- **Communication:** WebSocket/Socket.IO
- **Project Builders:** Webpack, Bebel, Gulp

Back-end stack (no commercial experience):

- **Core:** Node.js
- **Frameworks:** Express, NestJS
- **API:** REST, GraphQL
- **Databases:** SQLite, MongoDB, PostgreSQL, Redis
- **OEM/Schemas:** TypeORM, Mongoose, Drizzle, Prisma
- **Containerization:** Docker, Docker Compose
- **Cloud:** Heroku, Vercel, Amazon ECR

Additional skills & Tools

- **Methodologies:** Agile, SCRUM, **BEM**, **FSD**
- **Documentation:** **Storybook**, Postman, Swagger
- **Version Control:** **Git** (**GitHub**, GitLab, Bitbucket)
- **Operating Systems:** **Linux**, Windows, MacOS

Values that I bring

A strong focus on best practices, clean architecture, and maintainable code. My work is driven by precision, efficiency, and a deep understanding of modern front-end development. I thrive in environments that value high-quality engineering and continuous improvement.

Thank you for taking the time to review my resume - I truly appreciate your attention!
